and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

My husband and I only use our cell phone for emergencies. Most months, We use no air-time minutes at all! We bought a Tracfone because we could no longer afford the wireless service we were using as my husband has cancer and can no longer work. Disability payments can only be stretched so far. If you go ahead with this proposal, we will no longer be able to afford any cell phone service. Our safety and security are in your hands.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Carolyn Sue Morris
